ENABLE EVERY ROOM. ENABLE EVERY PERSON.

Logitech's ConferenceCam lineup provides high quality video and audio to work with your video conferencing software of choice. From huddle rooms to private offices to conference rooms, now any space can be a video-enabled collaboration space.

Quality, Simplicity, and Affordability

Logitech® ConferenceCams deliver crystal clear audio and razor sharp video that's so amazingly affordable, any meeting place can be a video collaboration space. From huddle rooms to mid- and large-size conference rooms, Logitech enables video meetings that are the next best thing to being there in person.

Our ConferenceCams are changing the way teams collaborate, opening new possibilities and eliminating old boundaries. They work with any video conferencing software application, including the ones you already use. And with plug-and-play simplicity, full duplex omni-directional speakerphones, and wide fields of view, everyone in the room can be easily seen and heard.

Conceived and developed for professional collaboration, Logitech ConferenceCams feature key business certifications, award winning design, advanced functions, and super-reliable performance. Bottom line: Logitech ConferenceCams are the right choice for business.
